1. Notice is hereby given that sealed tenders will be received up to the 15th June 1920, for the supply of uniform, etc., to the different pumping stations attached to the division, for the year 1920-21. The probable number of uniforms, etc., required for each pumping station is noted in a separate statement. These quantities are not guaranteed, but may be 10 per cent more or less at the time of ordering for same from successful tenderer.

2. The tender should be accompanied by a deposit of Rs. 250 in cash or Government currency notes as earnest money, and be superscribed "Tenders for the supply of uniforms, etc., for the year 1920-21," in default of which, tenders will be rejected.

3. The final acceptance of the tender will rest with the Superintending Engineer, Sanitary Circle, who does not bind himself to accept the lowest or any tender or assign any reason whatsoever for the rejection of any tender.

4. Within a week of the acceptance of any tender, the successful competitor will be required to execute the usual contract bond; one of the conditions being that the supply will be completely delivered by the 15th September 1920, in default of which, his tender will be considered cancelled, and his earnest money forfeited.

5. The name of the successful competitor will be posted on the notice board in the Executive Engineer's office in due course. No enquiries regarding the acceptance or rejection of any tender, will receive attention.

6. The supplies of materials will be seen by the Executive Engineer in his office between 1 and 5 P.M., on office days. The uniform should be complete with buttons and rings in every respect and the cut and stitching should be up-to-date. The uniforms should be delivered at the respective pumping stations. Each station's supply should be brought to the Executive Engineer at his office for inspection and approval before the articles are delivered at different stations. The quality should be the same as that of the samples shown and approved of. Should there be any difference in any of the prepared articles and the approved samples, the contract is not only liable to be cancelled, but the earnest money forfeited and the party will be made liable for any extra cost that may be involved in purchasing them elsewhere.

7. The successful tenderer is required to take the measurement of the uniforms, etc., at the pumping stations where the parties are and have such measurements certified by the Superintendent concerned as to their correctness and this should be produced along with the finished ones, brought for inspection and approval before delivery to the station concerned.

Statement of approximate number of uniforms, etc., required for the staff of Water-Supply Division during the year 1920-21:—

C. N. SHAMA RAO,
For *Executive Engineer.*

MYSORE HEADQUARTER RANGE.

Notification dated 5th May 1920.

Notice is hereby given that sealed tenders will be received at the Office of the Assistant Engineer, Mysore Headquarter Range, up to 31st May 1920, for extending the wings on both sides of European Guests' Quarters at Mysore. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of June 1921.

2. The plans, detailed estimate and conditions may be seen at the Assistant Engineer's Office at Ramavilas Agrahar between the hours of 11 A.M. and 5 P.M.

3. Tenders should be submitted on printed forms which may be obtained from the Assistant Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of Rs. 500 in cash or Government Promissory notes, as earnest money, and be superscribed, "Tender for Extending the Wings on both sides of European Guests' Quarters at Mysore" in default of which, tenders will be rejected.

5. The final acceptance of any tender will rest with the Chief Engineer, who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond; in default of which, his tender will be considered cancelled, and his earnest money will be forfeited.

7. Indefinite remarks such as "as per date" "as per market rate," "as per estimate," etc., will not be considered. Only specific rates should be quoted.

8. Tenders will be accepted and orders given for the works if they are provided for in the next year's budget.

9. The name of the successful competitor whose tender has been accepted, will be posted on the notice board in the Assistant Engineer's Office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

10. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

Abstract estimate for extending the Wings on both sides of European Guests' Quarters at Mysore.

No.	Items of work	Unit	Quantity	
			Ground floor	First floor
